EDUCATION

Birla Institute of Technology and Science - Pilani
Bachelor of Engineering Computer Science

Aug 2023-May 2027

TECHNICAL SKILLS

- **Programming & Databases:** Python, Java (OOP), C++, SQL, C, JavaScript, Database Management Systems (DBMS), Scripting
- **Platform & Core CS:** Git, Docker, REST APIs, Algorithms, Data Structures, Containerization, Software Design, Version Control
- **AI/Machine Learning:** NLP, PyTorch, Model Evaluation, Data Modeling, Time-Series Analysis, TensorFlow, Scikit-learn, NumPy

RESEARCH EXPERIENCE

Safe & Trusted AI Lab (STAI), BITS Pilani

May 2026-Present

Advisor: Prof. Siddharth Mehrotra

Pilani

- Selected through a **competitive acceptance process** as part of the founding cohort of the **Safe & Trusted AI Lab (STAI)**
- Investigating **human oversight** of **AI-generated fraud-risk recommendations** in India's PM-JAY health insurance system
- Designed a **role-specific claims review prototype** to study **intervention, overrides, and reliance on AI recommendations**

Web Intelligence and Social Computing Lab, BITS Pilani

June 2026 - Present

- Developed a **multistage claim-verification system** combining dense retrieval, reranking, and transformer-based classification
- Designed closed- and open-evidence **pipelines** for retrieval and veracity prediction, achieving **84.17 macro-F1** and **80.0 Success@3**.
- Evaluated performance across **English, Hindi, Bengali, and code-mixed claims**, analyzing robustness across multilingual settings

WORK EXPERIENCE

Beckn

May 2025-July 2025

Software Engineering Intern

Bengaluru

- Engineered an **MCP server** to integrate **generative AI** models with decentralized commerce networks, focusing on **interoperability**
- **Designed intelligent DOFP and orchestration agents** enabling automated discovery, negotiation, and fulfillment across domains
- Collaborated with Google, MIT, and Stanford on ONDC **protocol design**, contributing to scalable **Digital Public Infrastructure**

PROJECTS

Image Classification using Convolutional Neural Networks in Java

March 2025

- Developed a **CNN** from scratch in **Java** (no external ML libraries used) to classify **Fashion MNIST dataset** with **10** output classes
- Designed custom image linearizer and did logistic regression, achieving **72%** accuracy, improved to **~90%** with deep CNN architecture
- Demonstrated **quantitative reasoning** and **strategy design**, transferable to **modeling nonlinear dependencies** in market datasets

Health Risk Prediction using Machine Learning Models

August 2024

- Developed an end-to-end **ML pipeline** (Python) to identify health risks using a **100+** feature set, focusing on structured risk modeling
- Engineered features and applied **classification models** to optimize predictive accuracy and **reduce noise in high-dimensional data**
- Conducted **data-driven analysis** to **extrapolate correlations** between diverse range of health indicators and their impact on health

CONFERENCES

IKDD CODS 2026 - ACM SIGKDD (UNDER REVIEW)

Oct 2026

- Presented research on **human-AI interaction** and **oversight** in AI-assisted claims review in India's PM-JAY health insurance system.
- **Designed a role-specific prototype** simulating claims across medical, anti-fraud, and administrative reviewers to study reliance

POSITION OF RESPONSIBILITY

Pitching & Strategy Coordinator - Placement Unit Member, BITS Pilani

April 2026-Present

- Selected as **1 of 6 members** from a competitive applicant pool of **1200+ students** to join the university **Placement Unit**
- Coordinate recruiter communication, interview scheduling, and placement operations across **large-scale campus hiring** processes
- Support company engagement and student outreach initiatives for internship and placement recruitment activities actively

Finance Lead, Department of Sponsorships and Marketing, BOSM

August 2023-Present

- **Led a team of 20+** people to secure **₹10 lakh in sponsorships**, BOSM's **highest post-COVID amount**, with **7,000-8,000 footfall**
- **Managed financial planning and budgeting**, optimizing **deliverables and ROI** for companies while guiding team members
- **Collaborated with other teams** to integrate branding across event platforms, driving **higher engagement and audience exposure**

ACHIEVEMENTS

Qualified NTSE Stage 1

July 2021

- Secured an impressive **State Rank 19** in NTSE Stage 1, a competitive exam **taken by over 100,000 students** across Uttar Pradesh.
